

# FEATURES & FINISHES

## QUALITY CONSTRUCTION

- Architecturally controlled community designed homes with genuine clay brick, structural precast stone, "maintenance free" Hardie Board (or equivalent) siding & trim, decorative moldings & accent features.\*\* House siting and exterior colour packages will be architecturally controlled.
- Architectural features including raked and/ or tooled masonry joints (Vendor's choice), detailed dormers, metal roofs, decorative brackets, decorative columns, finials, shutters, turrets, box bay windows and cupolas, as per elevation.
- 2 x 6 exterior stud walls with sheathing.\*\*
- Engineered roof systems with raised heel trusses.
- Prefinished "maintenance free" aluminum soffits, fascia, frieze, eaves troughs and downspouts, as per elevation.
- Premium manufacturers "shake like" profile architectural shingles provide durability, high grade and tear resistant.
- Wood and steel beam construction.
- 5/8" premium engineered OSB tongue & groove subfloor, nailed, glued & screwed.\*\*
- 3/8" plywood or 7/16" OSB roof sheathing, Vendor's choice.\*\*
- Engineered floor joist system for all subfloors, not including landings.
- Poured concrete basement walls with heavy duty damp proofing, weeping tiles and exterior drainage membrane.
- Rear covered concrete porches and precast concrete steps to grade with composite columns.\*\*
- Poured concrete porches on main entrance.\*\* Precast patterned patio slabs to front door, layout of steps determined by Vendor.\*\* Rear and side door(s), where applicable, to receive precast concrete step(s) where grading does not exceed 6 risers.
- 10' ceiling height on main floor, 9' ceiling on 2nd floor and loft areas.\*\* Basement ceiling height to be 9 feet high.\*\*
- Optional door from garage to exterior, grade permitting.\*\*
- Entry-resistant framing on all perimeter doors (excluding sliding patio doors).
- Concrete garage floor with reinforced grade beams.
- Rear loggia finished with decorative soffits.\*\*
- Rough-in BBQ gas line to rear of home (appliance not included), location determined by Vendor in the loggia area.
- Three piece rough-in plumbing in basement.\*\*
- Two car garage, and three car garage, as per plan.
- Garage interior to be finished with drywall, one coat of tape and primed.
- Drain water heat recovery unit to be installed in each home.
- PEX (cross-linked polyethylene) hot and cold water lines throughout.

## DOORS AND WINDOWS

- "Maintenance free" thermopane ENERGY STAR\* qualified coloured vinyl casement windows on all front, side and rear elevations. Coloured window frames as per the exterior colour packages approved by the Controlling Architect. Muntin bars within the panes of glass, on front elevation only.\*\* Standard basement windows to be ENERGY STAR\* qualified white vinyl sliders. All windows, including basement windows, to be double-

glazed with low emissive coating, argon filled gas with insulated edge spacer bars for greater energy cost savings. All operable windows to have screens. Some decorative windows are fixed glass.

- Premium 8' high\*\*\* ENERGY STAR\* qualified insulated main front entry systems, featuring stained wood-grain texture with sidelight(s) and/or transom(s).\*\* Grip set(s) with deadbolt lock on front elevation doors.\*\*
- All exterior doors, windows and building perforations to be foam insulated and fully caulked.

Insulated metal door from garage into house.\*\* Where applicable, and at the Vendor's sole discretion, the main floor at entry door(s) may be dropped a maximum of 2 risers to accommodate the entry door(s); the main floor laundry, mudroom, hobby room may be dropped a maximum of 3 risers to accommodate entry door(s) into the home from the garage. The Vendor reserves the right to either: substitute the door from the garage to the house with a wall, if grade difference exceeds 3 risers, depending on the house plan and zoning by-law restrictions; or alternatively, in addition to the maximum 3 riser drop in the floor, provide a wood deck in the garage at the door location if required by grade.\*\*

- Thermopane exterior metal French door(s).\*\* Muntin bars and screens not included. Upgraded 8' high patio door slider system at loggia.\*\*

Extra-large basement windows, 24" high.\*\* Window wells to be installed to accommodate standard basement window(s) depending on grade, at Vendor's discretion.

Extra tall windows to all main floor side and rear windows.\*\*

Purchaser's choice of three (3) upgraded, smooth finish, decorative-panel interior passage & closet doors throughout, from Vendor's standard samples.\*\*

Vendor's choice of pewter finish or brushed satin nickel finish levers and hinges (hinges not painted) throughout.

## ELECTRICAL

- Twenty (20) interior pot lights on main floor ceiling, not including vaulted/raised/cathedral areas. All pot lights are energy efficient with LED bulbs. Maximum of three (3) additional switches. Locations selected by Purchaser(s) and approved by Vendor.
- Two (2) exterior pot lights in the rear loggia with LED bulbs.
- 200 AMP service with circuit breakers and copper wiring throughout.
- Heavy-duty cable and outlet for oven and dryer, plus outlet for gas cooktop only.
- Electrical outlet for the washing machine in the laundry room.
- Exterior GFI protected electrical outlets. One (1) at the front main entrance, one (1) at the rear door and one (1) switch controlled outlet at the front porch soffit for holiday lighting. (Location of outlets determined solely by Vendor.)\*\*

Electrical outlets in garage: one (1) per car park on the wall and two (2) or three (3) outlets in garage ceiling for future installation of garage door opener(s) at Vendor's sole discretion. Garage door opener(s) not supplied.

All electrical plugs and ceiling light fixtures located within all exterior walls and insulated ceilings are installed in sealed boxes.

- Ceiling fixtures in foyer, hallways, laundry room, breakfast room, kitchen, servery, mudroom, walk-in pantry, hobby room, media room, office, sitting room, recreation room and all bedrooms to have ENERGY STAR\* LED light bulbs. Vendor supplied fixtures.\*\*
- Capped ceiling outlets: one (1) in the dining room, one (1) in the living room, one (1) in the great room, one (1) in the entertainment loft, and one (1) in the library room, with a switch provided for future light fixtures.\*\*
- All exterior doors, windows and building perforations to be foam insulated and fully caulked.

Insulated metal door from garage into house.\*\* Where applicable, and at the Vendor's sole discretion, the main floor at entry door(s) may be dropped a maximum of 2 risers to accommodate the entry door(s); the main floor laundry, mudroom, hobby room may be dropped a maximum of 3 risers to accommodate entry door(s) into the home from the garage. The Vendor reserves the right to either: substitute the door from the garage to the house with a wall, if grade difference exceeds 3 risers, depending on the house plan and zoning by-law restrictions; or alternatively, in addition to the maximum 3 riser drop in the floor, provide a wood deck in the garage at the door location if required by grade.\*\*

- Front entry door chimes.
- Electronic smoke detectors on all levels of the home and carbon monoxide detectors on all levels that have bedrooms.

All plugs to be protected with arc fault breaker(s).

- Rough-in central vacuum outlets centrally located on each finished level in finished areas. Pipes dropped to unfinished space in basement only.

Dedicated electrical outlet for refrigerator and dishwasher.

- Electrical outlet provided below counter within kitchen island and/ or peninsula cabinet, as per code (only applicable on the island when the island is permanently fixed with plumbing).\*\*

Upgraded trim with 5 1/4" Modern style baseboards\*\*\* and 2 3/4" Modern style casing\*\*\* throughout all finished areas.

Cathedral ceilings, vaulted ceilings, dry walled barrel arches, niches and open 2-storey areas.\*\*\*

- Optional waffle and coffered ceilings.\*\*

All closets to have white vinyl coated wire shelving.

- Gas fireplace, as per plan.

Privacy locks on master bedroom and all bathroom doors.

- Window seat with painted MDF top.\*\*

Optional elevator with stained oak veneer interior cab, hardwood flooring & two (2) ceiling pot lights.\*\*

## KITCHEN AND SERVERY FEATURES

- Upgraded kitchen & servery cabinetry to have a wide range of door styles and colours available for Purchaser(s) to choose from Vendor's standard samples.
- High efficiency, ENERGY STAR\* qualified, 95% efficient, 2 stage ECM gas fired forced air gas furnace(s) including central air conditioning. Location and orientation may vary at Vendor's discretion without notice.\*\*
- High efficiency condensing gas fired hot water heater on a rental basis with designated supplier at Vendor's sole discretion.
- All homes to be equipped with an ENERGY STAR\* qualified HRV (Heat Recovery Ventilator) paired with the furnace. Only one HRV supplied for each home.
- Electronic programmable thermostat(s), centrally located on the main floor. Location of thermostat(s) at Vendor's discretion.

## LAUNDRY ROOM, HOBBY ROOM & MUD ROOM

- Exterior venting for dryer in laundry room.
- "Oatey" box (or equivalent) recessed in the wall in the vicinity of the washer to facilitate ease of connection of washing machine hot and cold water lines as well as the drain.
- Electrical outlets in garage: one (1) per car park on the wall and two (2) or three (3) outlets in garage ceiling for future installation of garage door opener(s) at Vendor's sole discretion. Garage door opener(s) not supplied.
- Single stainless steel basin laundry tub where shown on plan to have two (2) handle faucet and to be set in a base cabinet.

- Laundry uppers, in white melamine only, over washer and dryer.\*\*
- Base cabinets in laundry, hobby room, and mudroom, as per plan, to be white melamine with choice of laminate top from Vendor's standard samples.

Benches,\*\* where applicable, to consist of a painted MDF top.

## INTERIOR DETAILS

- All interior doors and trim to be painted with two (2) coats of white premium quality semi-gloss finish, one (1) primer plus one (1) finish.
- Main floor to have smooth ceiling including open to above ceilings.\*\* Second floor upper hall, master bedroom (not including closets), bathrooms and laundry to have smooth ceilings, all other areas to have sprayed stipple ceilings with 4" smooth borders.\*\*
- Front entry door chimes.
- Electronic smoke detectors on all levels of the home and carbon monoxide detectors on all levels that have bedrooms.
- Trimmed archways at 8' high\*\*\* and trimmed half walls.\*\*
- Front door to be protected with arc fault breaker(s).
- Rough-in central vacuum outlets centrally located on each finished level in finished areas. Pipes dropped to unfinished space in basement only.
- Dedicated electrical outlet for refrigerator and dishwasher.
- Electrical outlet provided below counter within kitchen island and/ or peninsula cabinet, as per code (only applicable on the island when the island is permanently fixed with plumbing).\*\*

## MASTER ENSUITE, POWDER ROOM & SECONDARY BATHROOMS

- Cabinetry for all bathrooms to have a wide range of door styles and colours available for Purchaser(s) to select from Vendor's standard samples.
- Purchaser(s) choice of Vendor's standard Beebe with 1/4" chip foam underpad\*\* or 40oz. board on with 1/2" chip foam underpad\*\* in all bedrooms, recreation room and lower level finished areas.\*\* Purchaser(s) choice of colour from Vendor's standard samples (no colour throughout standard).
- 5" pre-finished, stained oak strip hardwood flooring.\*\*
- Optional elevator with stained oak veneer interior cab, hardwood flooring & two (2) ceiling pot lights.\*\*

## KITCHEN AND SERVERY FEATURES

- Upgraded kitchen & servery cabinetry to have a wide range of door styles and colours available for Purchaser(s) to choose from Vendor's standard samples.
- Master ensuite to have a rectangular free standing acrylic tub with built-in two handle tub mounted faucet.\*\*
- Master ensuite vanity(ies) to have a bank of drawers or bottom drawer or a makeup counter with a drawer; Vendor's choice.\*\*
- Vanities with single sink to have top drawer.
- Master ensuite to have marble countertop with standard profile edge, Purchaser(s) choice from Vendor's standard samples.
- All kitchen cabinet drawers and doors to include 'soft close' hinge hardware.
- Kitchen Islands and peninsulas to have dummy doors over the exposed back and side panels.\*\*
- Valance lighting and moulding under kitchen and servery uppers.\*\*

- Extended upper cabinets in the kitchen and servery.\*\*
- Crown moulding above kitchen and servery uppers.\*\*
- Kitchen and servery tile backsplash from Vendor's standard samples.\*\*
- Granite and Quartz counter tops in kitchen and servery to have standard profile edge and clean cut back.\*\* Purchaser's choice of colour and material from Vendor's standard samples.

- Island in kitchen to have flush extended breakfast counter.\*\* Cabinet interiors to be finished in white melamine.
- Kitchen cabinets to have provisions for a built-in microwave & oven tower, including electrical rough-in.
- Full depth fridge gables with deep upper cabinet above fridge.\*\*
- Double stainless steel undermount sink with upgraded single lever pullout spray faucet in kitchen.
- Single stainless steel undermount sink in servery with single lever faucet.\*\*
- Electrical and plumbing for dishwasher.
- White vinyl coated wire shelving for the kitchen walk-in pantry.\*\* Maximum three (3) shelves.
- Dropped ceiling boxes over kitchen cabinets as required, at Vendor's discretion.
- Main staircase in 2-storey and loft designs (basement to 2nd floor) to be stained oak veneer, in Purchaser's choice of colour from Vendor's standard samples. Granite or Quartz countertop from Vendor's standard samples and single basin stainless steel undermount sink with single lever faucet.\*\*
- Trimmed archways at 8' high\*\*\* and trimmed half walls.\*\*
- Main staircase in 2-storey and loft designs (basement to 2nd floor) to be stained oak veneer, in Purchaser's choice of colour from Vendor's standard samples. Granite or Quartz countertop from Vendor's standard samples and single basin stainless steel undermount sink with single lever faucet.\*\*
